

Product Code . JL-PET-10180

Analog Component Trainer Kit

Description

Analog Component Trainer Kit

Features:-

On board Resistor Bank, Capacitor Bank, Inductor Bank.

On board Transistors Zener Diodes 1.2V, 5.1V, 12V, On board 12V SPDT Relay Thermistor, Photodiode & LDR., 8ohm Speaker, five mm LED, Voltage regulators one each 2 numbers of Potentiometer.

On board Two Input Switches & Two Output Led Indicator.

Fixed DC Power Supply: $\pm 15V$, Variable DC Power supply of 0 to +15V & 0 to 30V, AC Power Supply of 18V-0-18V.

Analog Component Trainer Kit Manufacturer India, Analog Component Trainer Kit Exporters, Electronics Instruments Analog Component Trainer Kit, Analog Component Trainer Kit Suppliers, Buy Analog Component Trainer Kit, Buy Analog Component Trainer Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.
