

Product Code . JL-PET-10193

QPSK Modulation and Demodulation Kit

Description

QPSK Modulation and Demodulation Kit

Provides Four quadri-phase carrier output generated.

100KHz (0°), 100KHz (90°), 100KHz (180°), 100KHz (270°)

Synchronous data generator.

Switch selectable simulated data stream generated at approx.1Kb/s rate.

QPSK -modulator circuit and QPSK -Demodulator.

QPSK Modulation and Demodulation Kit Manufacturer India, QPSK Modulation and Demodulation Kit Exporters, Electronics Instruments QPSK Modulation and Demodulation Kit, QPSK Modulation and Demodulation Kit Suppliers, Buy QPSK Modulation and Demodulation Kit, Buy QPSK Modulation and Demodulation Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.
