

Product Code . JL-PET-10205

DSB/SSB AM Receiver Kit

Description

DSB/SSB AM Receiver Kit

Frequency range of 525 to 1625Khz.

Receiver CKT consist of RF Amplifier, Mixer, Local Oscillator, BFO, IF amplifier-1, IF amplifier-2.

Diode detector for DSB & Product detector for SSB.

Audio output amplifier with Speaker

Receiving Input using Telescopic Antenna or Directly using Cord from Transmitter
