

Product Code . JL-PET-10209

TDM Pulse Amplitude Modulation and Demodulation Kit

Description

TDM Pulse Amplitude Modulation and Demodulation Kit

Provides Sine waveform output of 250Hz, 500Hz, 1 KHz, and 2 KHz. With Amplitude adjustments of 0 - 5Vp-p.

On board 0 to 5V DC source with Amplitude adjustments.

Sampling rate of 32 KHz/channel with 8KHz. Channel Identification Signal.

On-board features Four Analog Channels TDM Multiplexing/De-multiplexing.

Clock regeneration at receiver using PLL.

4th order Butterworth Low pass filter with cut off frequency of 3.4 KHz.

TDM Pulse Amplitude Modulation and Demodulation Kit Manufacturer India, TDM Pulse Amplitude Modulation and Demodulation Kit Exporters, Electronics Instruments TDM Pulse Amplitude Modulation and Demodulation Kit, TDM Pulse Amplitude Modulation and Demodulation Kit Suppliers, Buy TDM Pulse Amplitude Modulation and Demodulation Kit, Buy TDM Pulse Amplitude Modulation and Demodulation Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.
