

**Product Code . JL-PET-10210**

## Analog Sampling and Reconstruction Kit

### Description

---

Analog Sampling and Reconstruction Kit

Provides Synchronized Sine waveform output of Frequency 1 KHz & 2 KHz.

With Amplitude adjustments of 0-5V p-p

Switch selectable sampling frequency of 2,4,8,16,32 KHz.

Provision for External sampling Input up to 40 KHz with amplitude of 5V.

On-board features Sample Circuit/Output, Sample & Hold Circuit/Output

Switch selectable Sampling Duty cycle of 0-90% in steps.

2nd & 4th order Low pass filter with cut off frequency of 3.4 KHz.

**Analog Sampling and Reconstruction Kit Manufacturer India, Analog Sampling and Reconstruction Kit Exporters, Electronics Instruments Analog Sampling and Reconstruction Kit, Analog Sampling and Reconstruction Kit Suppliers, Buy Analog Sampling and Reconstruction Kit, Buy Analog Sampling and Reconstruction Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.**
