

Product Code . JL-PET-10211

TDM Pulse Code Modulation Kit

Description

TDM Pulse Code Modulation Kit

Provides Sine waveform output of 500Hz, 1 KHz with Amplitude adjustments of 0 - 5Vp-p.

Two Nos. of variable DC source with Amplitude adjustments.

Mode of Operation Fast (240 KHz/Channel approx) & slow (1Hz. /channel approx.)

2 Channel Time Division multiplexed Pulse Code Modulation Transmitter.

None, Even, Odd, Hamming Parity selections.

Pseudo random sync.

Code generator for FRAME Synchronization.

PLL for Bit synchronization.

TDM Pulse Code Modulation Kit Manufacturer India, TDM Pulse Code Modulation Kit Exporters, Electronics Instruments TDM Pulse Code Modulation Kit, TDM Pulse Code Modulation Kit Suppliers, Buy TDM Pulse Code Modulation Kit, Buy TDM Pulse Code Modulation Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.
