

Product Code . JL-PET-10212

## TDM Pulse Code Demodulation Kit

### Description

---

TDM Pulse Code Demodulation Kit

2 Channel Time Division demultiplexed Pulse Code Modulation Receiver.

Mode of Operation Fast (240 KHz/Channel approx) & Slow (1Hz. /channel approx.)

Pseudo random sync, Code generator for FRAME Synchronization.

Receiver clock generation using PLL.

Error Detection of None, Even, Odd, Hamming.

Error Correction using Hamming Code technique.

None, Even, Odd, Hamming Parity selections.

Two Nos. of 4th order Butterworth Low pass filter with cut off frequency of 3.4 KHz.

**TDM Pulse Code Demodulation Kit Manufacturer India, TDM Pulse Code Demodulation Kit Exporters, Electronics Instruments TDM Pulse Code Demodulation Kit, TDM Pulse Code Demodulation Kit Suppliers, Buy TDM Pulse Code Demodulation Kit, Buy TDM Pulse Code Demodulation Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.**
