

Product Code . JL-PET-10213

## Data/Adaptive Data Modulation and Demodulation Kit

### Description

---

Data/Adaptive Data Modulation and Demodulation Kit

Provides Synchronized Sine waveform output of 250Hz, 500Hz, 1 KHz and 2 KHz with Amplitude adjustments of 0 - 4Vp-p.

Switch selectable sampling clock of 8, 16, 32,64 KHz.

Modulation & Demodulation Techniques using Delta modulation, Sigma Delta modulation, Adaptive Delta modulation, CVSD modulation.

On-board m-law Compander and Expander.

2nd & 4th order Butterworth Low pass filter with cut off frequency of 3.4 KHz.

**Data/Adaptive Data Modulation and Demodulation Kit Manufacturer India, Data/Adaptive Data Modulation and Demodulation Kit Exporters, Electronics Instruments Data/Adaptive Data Modulation and Demodulation Kit, Data/Adaptive Data Modulation and Demodulation Kit Suppliers, Buy Data/Adaptive Data Modulation and Demodulation Kit, Buy Data/Adaptive Data Modulation and Demodulation Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.**
