

Product Code . JL-PET-10234

Load Measurement Using Strain Gauge Kit

Description

Load Measurement Using Strain Gauge Kit

Resistive cantilever type Load cell is used to measured up to 3 KGs.

Primary Excitation voltage of 12V DC provided on board.

On-board 4 1/2 Digital Panel Meter provided.

Onboard Instrumentation Amplifier provided.

Weights can be verified by Physical counting of weights.

Load Measurement Using Strain Gauge Kit Manufacturer India, Load Measurement Using Strain Gauge Kit Exporters, Electronics Instruments Load Measurement Using Strain Gauge Kit, Load Measurement Using Strain Gauge Kit Suppliers, Buy Load Measurement Using Strain Gauge Kit, Buy Load Measurement Using Strain Gauge Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.
