Jain Laboratory Instruments

Product Code . JL-PET-10235

Sensor Trainer Kit

Description

Sensor Trainer Kit

On-board Digital Panel Meter provided Measuring range of +/-1V & Digital RPM Meter.

LVDT Transducer with transparent enclosure to measure Displacement of ± 5mm.

Resistive Load cell is used to measure Load/Strain up to 3 KGs.

Temperature Sensor like K-type Thermocouple,PT-100,LM335 Sensor,Thermistor Sensor with Signal Conditioning Amplifier.

Level Measurement up to 100mm with Signal conditioning.

Proximity Switch & Opto-coupler is used for Speed measurement.

MQ2 Smoke Sensor with Buzzer for Alarm, Instrumentation amplifier.

Sensor Trainer Kit Manufacturer India, Sensor Trainer Kit Exporters, Electronics Instruments Sensor Trainer Kit, Sensor Trainer Kit Suppliers, Buy Sensor Trainer Kit, Buy Sensor Trainer Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.
