

Product Code . JL-FOT-10269

Electrical Machine Trainer

Description

Electrical Machine Trainer

Machine trainer having control panel should provided in 40X40mm Aluminum profile rack with sturdy table top flat panel.

Should have 3phase DOL starter 4pole MCB, contractor & relay panel.

Should have 3 phase multifunction meter panel (2nos), FWD/REV, STAR/DELTA Switch panel, Rotor & Sync panel, 1 ph. Motor, Voltmeter & Ammeter Panel, SCR controlled variable DC panel.(3nos), Instrumentation panel, Synchronization panel, Variable AC/DC panel

1 Phase AC/DC Resistive Load panel, 3 Phase Resistive Load panel, 3 Phase Inductive Load panel, Capacitive Load panel.

Should supply with motor 3 Phase AC Slip ring star/delta Induction Motor,Capacitor Start 1 Phase Induction Motor

Split phase 1 Phase Induction Motor, 3 Phase Synchronous Motor, Universal Motor, 3 phase salient pole Alternator, DC Machine Motor/Generator Trunion, 3 phase 2 speed Induction Motor. DC Machine Motor.

Electrical Machine Trainer Manufacturer India, Electrical Machine Trainer Exporters, Electronics Instruments Electrical Machine Trainer, Electrical Machine Trainer Suppliers, Buy Electrical Machine Trainer, Buy Electrical Machine Trainer Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer
