

Description

Reciprocating Pump Test Rig.

Speeds size 1/2 " X 3/4 " to discharge 220 GPH at 40m. head, (approx.) electric motor of capacity 1 HP A.C. OR D.C. motor single phase drive from the motor to pump is given by a variable reduction pulley belt drive or Dimmer Stat.

Variable speed arrangement by reduction Pulley.

Pressure gauge, Vacuum gauge, foot valve.

Energy meter. Switch, starter, and stop clock.

MS. Powder coated Measuring tank with scale Fitting and 1 "drain valve.

MS. Powder coated Sump Tank.

Reciprocating Pump Test Rig. Manufacturer India, Reciprocating Pump Test Rig. Exporters, Electronics Instruments Reciprocating Pump Test Rig., Reciprocating Pump Test Rig. Suppliers, Buy Reciprocating Pump Test Rig. Buy Reciprocating Pump Test Rig.
