

**Product Code . JL-DMI-1034**

## Digital Milli Volt and Milli-Amp Source and Meters

### Description

---

Digital MilliVolt and Milli-Amp Source and Meters

(Thermo-Couple Calibrators) Provide continuously variable voltage and current outputs.

The range of current output variable from 0-200 mA and the range of voltage output of 0-200 mill volts DC.

Selection of current and voltage output available by means of a front panel control.

Choice of measurement of output source voltage.

Output source current of unknown external voltage possible by front panel control on 3.5 digit display.

Source impedance of 2 ohms for voltage source.

Input impedance of DVM more than 10 M ohms.

Cabinet size of 75 mm (H) x 185 mm (W) x 220 mm (D).

Contact JLab Export for your Educational School Science Lab Equipments. We are best school science equipments suppliers, school science kits, school science lab equipment exporter, school science lab equipment manufacturer, school science lab equipment supplier, school science lab equipment suppliers.
