

Product Code . JL-FC-10401

1000MHz Frequency Counter

Description

1000MHz Frequency Counter

Description:-

Frequency Counter provides high performance, and stability at low cost.

The Counter can measure Frequency and Period.

Frequency Counter is a multifunction Frequency Counter based on state of art technology.

Two selectable gate time fixed values: 1s and 10s are provided.

It has 3 step Frequency range selection, and LCD display.

Frequency Counter measures signals over a wide range from 0.1 Hz to 1000 MHz.

Features:-

Frequency and Period measurement

Digital readout with backlit LCD

Microcontroller based design

Frequency measurement from 0.1Hz to 1000MHz

Frequency range selection in 3 steps

Two selectable Gate time; 1s, 10s

Easy to operate

Online Product Tutorial

Attenuation of 20dB and input impedance of 1MA (Input A)

Low power consumption
