True RMS General Purpose Clamp Meter

Description

True RMS General Purpose Clamp Meter with Diode Test

Description:-

JLab provides the combination of true RMS and average sensing measurement, rugged construction, easy & single-hand operation and reliable performance indispensable to troubleshoot various general electrical problems.

Features:-

DC A Zero adjustment thumbwheel.

Low-Battery annunciator.

Rugged, easy & single-handed operational, and reliable.

Surge (Transient) Voltage protection.

Peak hold

Maximum conductor size 1.5".

Protective hand guard to prevent an accidental contact with conductor.

Diode test

Frequency measurement capability.

True-RMS Clamp Meter.
