

Product Code . JL-M-10481

Power Meter

Description

Power Meter

Description:-

The readings indicated on the meter are directly calibrated in dBm.

Optical Power Meter is Hand Held Power Meter which provides performance, durability and stability for measurement of optical power.

The standard 9V battery is easily replaceable from the separated battery component on the backside of the meter.

Switches are provided for meter On/Off and wavelength selection.

Features:-

Display : 12 mm LCD

Wavelength : 660 & 950 nm*

Range : 0 dBm to -60 dBm

Detector : Silicon detector

Connector : SMA

Accuracy : 0.5 dBm

Learning material : CD (Theory, procedure, reference results, etc).

Power : 9 V Battery

Size (mm.) : W 100 x D 45 x H 175
