

Product Code . JL-BE-10502

Experimentation with Active Filters

Description

Experimentation with Active Filters

Description:-

Electronic filters are electronic circuits which perform signal processing functions, specifically intended to remove unwanted signal components and/or enhance wanted ones.

Experimentation with Active Filters is a remarkable and frequently used laboratory equipment which is designed to explain basic fundamentals of filter design and their working.

Experimentation with Active Filters Manufacturer, Experimentation with Active Filters Suppliers, Experimentation with Active Filters India, Experimentation with Active Filters Exporter, buy Experimentation with Active Filters, Basic Electronics, Experimentation with Active Filters India, Electronics, Experimentation with Active Filters, Experimentation with Active Filters Manufacturer, Educational Lab Equipment, buy Experimentation with Active Filters Online India.

Features:-

Designed, considering all the Safety Standards.

Provided with briefly described operating manual

A low cost trainer demonstrating all the basic concepts of Active Filters.

Provided with inbuilt Power supply

Selectable frequency range of Function Generator

Exclusive presentation and easy illustration of each part of the Filter Circuit.

Provided with inbuilt Function Generator
