Corning Scholar Hot Plate

Description

Corning Scholar Hot Plate

Description:-

Heats from 25°C to 400°C (77 to 672°F)

This unit will fit just about anywhere as required.

Dual heat shields dissipate heat keeping case cool to touch even at the highest temperature setting at 400°C an important safety consideration.

White enamelled 5?x5? steel top plate provides maximum heat transfer and saves the bench space.

Self-regulating temperature control uses proven heating technology.

Rugged construction gives you years of reliable service in the classroom.

Corning Scholar Hot Plate Manufacturer, Corning Scholar Hot Plate Suppliers, Corning Scholar Hot Plate India, Corning Scholar Hot Plate Exporter, buy Corning Scholar Hot Plate, Hot Plate, Corning Scholar Hot Plate, Analytical Research Equipments, buy Corning Scholar Hot Plate Online India
