

Product Code . JL-OED-1057

Photodiode Characteristics Apparatus

Description

Photodiode Characteristics Apparatus

- To plot a current versus Intensity of light at different value of voltages.
- Instrument consists of DC Regulated Power Supply 0-10 VDC/50mA, two round meters for voltage & current measurement, Photo diode mounted on the panel, connections of supplies & photodiode brought out at terminals with light source.
- Dimension 15"x8"x4".

Contact JLab Export for your Educational School Science Lab Equipments. We are best school lab equipment supplier, school lab equipments, school lab equipments export, school lab equipments exporter, school lab equipments manufacturers, school lab equipments manufacturers in india.
