8085 Microprocessor Training Kit

Description

8085 Microprocessor Training Kit

Kit is based on 8085 Microprocessor and is designed to provide ease in interaction with 8 bit Microprocessor capabilities.

This Kit can be used to train engineers about the Microprocessor Technology, to control any Industrial process and to develop Software for 8085 system.

This Kit has a powerful monitor in 4/8 bytes EPROM.

The monitor can be extended to incorporate an Assembler and Dissembler for 8085.

The Input/output structure includes programmable 24 I/O lines.

It has got 16 bit programmable Timber/Counter using 8253 for generation of any type of counting.

Different types of Interfacing Modules from us can be hooked with this kit to perform simple experiments & projects in the lab.

These modules are very helpful in learning about the real time inter acing problems of microprocessor.

Contact JLab Export for your Educational School Science Lab Equipments. We are best school educational lab equipments manufacturers, school lab equipment export, school lab equipment exporter, school lab equipment manufacturer, school lab equipment manufacturers, school lab equipment manufacturers in india.
