

Description

Fine Analytical Balance

DESCRIPTION :-

- Single pan Analytical balance with highest accuracy for weighing processes, readouts to have at least four decimal places.
- Equipped with a draft shield chamber to eliminate interfering ambient effects.
- Weighing Range : 0.01
- Capacity : 60gm
- Readability : 0.1mg
- Calibration : External
- Display : LCD Display
- Verification Interval : 0.001g
- Pan size : 80-100mm
- Power Supply : 210-240V/50-60Hz
- They are equipped with Touch Screen display with extended user menu.
- In order to guarantee proper accuracy of measurements, automatic system of calibration has been applied.
- Micro Balance consists of two components.
- One of them contains electronic modules, and the other precise Mechanical measuring system.
- Such a solution guarantees elimination of temperature change and hence influencing the indications of the Micro Balance .

STANDARD FEATURES :-

- Standard RS-232 C interface / Ps2 output.

- Hanger for below Balance Weighing

- Fully automatic Internal calibration with built in weight

- Complies GLP/GMP.

- Dye cast aluminum design for long term stability and accurate results

- Various weighing units like gm, mg, ct, oz, dwt, mon, GN

- User selectable stability and filter level Spacious draft shield interior
