

**Product Code . JL-COA-1147**

## Study of Instrumentation Amplifier

### Description

---

#### Study of Instrumentation Amplifier

- Calculate the Voltage Gain of Instrumentation Amplifier and draw a curve between V & R. Instrument comprises of One +15VDC Regulated Power Supply, 2 DC Regulated short circuit and overload protected continuously variable Power Supplies, 3 no. IC 741 placed inside & connections brought out at sockets.
- One Potentiometer and combination of Resistances placed on the front panel. DMM.

Contact JLab Export for your Educational School Science Lab Equipments. We are best scientific laboratory equipments manufacturer, scientific laboratory equipments supplier, technical educational equipment exporter, technical educational equipment manufacturer, technical educational equipment supplier, technical educational equipments exporter.
