

Product Code . EL-PL-12577

Rheostat

Description

Model No.: "SCK969/036"

DESCRIPTION :-

For use in experiments in extra-low and low voltage circuits, these heavy-duty variable resistors have shockproof housings and built-in ground sockets.

Connection: 4-mm safety sockets

Resistance: 10 ?

Current: constant: up to 5.7A maximum: 8.0 A (max 15 minutes)

Resistance tolerance: 10% from nominal value,

Max. permissible power: 320 W (continuous operation), 640 W (max. 15 min)
