

Product Code . JL-B-1956

Serological Water Bath

Description

Serological Water Bath

Serological water baths are widely used for clinical, Incubation, Inactivation, Agglutination & Biomedical procedures.

Serological water baths are widely used for day to day bacteriological and varied laboratory applications requiring incubation as well as general tests and procedures in variety of researches testing laboratories including: Wassermann, Kilmer tests.

These serological water baths have a variety of usages in tissue culture applications, enzyme reaction studies, growth observation studies, fermentation analysis and various other general and specialized applications in various laboratories.

+ 0.5oC to 1oC is controlled by capillary thermostat regulated by a graduated knob on the panel, which is also provided with pilot lamp etc.

The equipment is workable on 220V AC 50Hz single phase.

The baths are supplied without racks, thermometer and stirring arrangement.

Serological Water Bath Manufacturer, Serological Water Bath Suppliers, Serological Water Bath India, Serological Water Bath Exporter, buy Serological Water Bath, Baths, Serological Water Bath, Analytical Research Equipment, buy Serological Water Bath Online India

300x175x175mm (Suitable for 1 racks)	12ltrs.
375x300x175mm (Suitable for 4 racks)	18ltrs.
605x300x175mm (Suitable for 8 racks)	32ltrs.
