

Product Code . JL-B-1961

Water Bath Precision

Description

Water Bath Precision

Construction as per model but with glass windows on both opposite sides, for observation Temp.

Controlled by mercury contact thermometer with a sensitivity of 0.2°C.

Suitable for precision laboratory activities requiring constant temp.

With high degree of accuracy

Complete with stirrer with speed control regulator workable on 220V AC 50 Hz single phase.

Water Bath Precision Manufacturer, Water Bath Precision Suppliers, Water Bath Precision India, Water Bath Precision Exporter, buy Water Bath Precision, Baths, Water Bath Precision, Analytical Research Equipment, buy Water Bath Precision Online India

Chamber Size (in mm)	(Inches approx.)
425x250x225	{17"x10"x9"}
450x375x375	{18"x15"x15"}
600x 450x450	{24"x18"x18"}
