## Single Channel Micro pipette

### Description

---

Single Channel Micro pipette

Fully Autoclavable.

Placement and good design allows easy single handed tip ejection.

The holder provided with the pipette allows easy, efficient and safe storage.

Attractive colour coding for easy identification between different volume ranges.

Fixed volume pipettes are designed for many different types of routine laboratory work.

Specially designed large grippy is provided for comfortable grip and ease during working.

Built-in streamlined tip ejector facilitates easy tip ejection and access to narrow necked bottles and tubes.

New body design with soft grip and improved ergonomomy for more comfort and less fatigue during operation.

Using the same state-of-art design and basic features of Variable Volume Pipettes, these fixed volume pipettes are ideal for Clinical Diagnostics, Control Analysis etc.
