Concrete Vibrator

Description

Concrete Vibrator

The Needles are of the out of balance rotor type as well as Pendulum type made to I.S.S. 2505/80 standard and are available in Standard sizes of 25 mm, 40 mm, 50m & 60 mm diameter, each suited and streamlined to a 6 meter or 4 meter flexible shaft powered by a motor or a Petrol or Petrol/Kerosene engine.

Connections of drive shafts to unit are by means of easy connections.

The high frequency poker vibrators provide the necessary balanced combination of high frequency, large amplitude and high acceleration to ensure rapid and reliable compactation.
