Blood Bank Refrigerator Deluxe Model

Description

Blood Bank Refrigerator Deluxe Model

Blood Bank Refrigerators are available in various capacities, designed to fit a variety of space and storage requirements.

The refrigerators are equipped with heavy-duty compressors to maintain a vital operation temperature of 4.0°C. Superior refrigeration technology and precise temperature control to ensure reliable blood storage.

Inner and outer chamber both made of Stainless Steel (SS-304). Door, panel, base plate and top cover made of C.R.C. duly powder coated.

Stainless Steel Baskets are provided for storage inside.

Foamed - in - place CFC Free PUF insulation ensures temperature stability and reduced energy consumption.

Stainless steel heavy duty basket ensures even temperature distribution.

Micro - controller controls the internal temperature between 4°C to 6°C with an accuracy of $\pm 0.5^{\circ}\text{C}$, for storing blood bottles or blood bags.

The cooling is effected by a hermetically sealed CFC Free Eco Friendly Compressor.

To work on 220/230 volts A.C
