Sling & Swathe Shoulder Immobilizer JLab

Description

Sling & Swathe Shoulder Immobilizer

Constructed from lightweight and durable foam laminated fabric mesh for extra protection and comfort.

Easy-to-adjust design with criss-cross straps at back fits most comfortably at proper location.

Detachable swathe effectively immobilizes the shoulder and also can be used alone as an arm sling.

Fits either or left arm for male or female patients.

Closes with Hook and Loop fasteners.

Available in attractive Light Blue and Beige color.

Washable with hand or machine.
