## **B.P. Bulb**

### **Description**

---

#### **B.P. Bulb**

Offered comes with/without end valve latex free finish and finds usage with most blood pressure instruments.

Quality construction finish also makes it deliver lasting usage.

Some of its features include finding use in conjunction with stethoscope, quality finished rubber squeeze bulb for pumping of air, small valve attached.

The bulb allows for slow releasing of air for measurement of pressure, provides for accurate measurement of systolic pressure and diastolic pressure.
