Controlled Drug Cabinet

Description

Controlled Drug Cabinet

All Lec Medical drugs cabinets exceed the requirements of "The Misuse Of Drugs (Safe Custody) Regulations 1973" and fully comply with BS 2281.

All cabinets are powder coated and oven baked for a tough, long lasting finish.

All products are fitted with a 7 lever mortice dead lock.

Minimum 16 gauge (approximately 1.6mm) mild steel used on all cabinets up to a maximum of 6mm on heavier duty cabinets.

Floor or wall mounted options available.

Optional alarm light and alarm with power supply available - factory fitted.

Floor fixing kit available for selected cabinets.

Multi-point locking featured on selected cabinets.

CDC560 and CDC570 have partially adjustable shelves.
