

Product Code . JL-XRMAE-3900

X Ray Machine

Description

X Ray Machine

Single phase.

Full wave rectified (silicon rectifiers).

H medium powered X-Ray unit independent KV.

mA and time techniques for better radio graphic results.

Booster Transformer for constant mA output.

Instantaneous electronic tube overload protection for longer tube life.

Independent KV, mA and time techniques for better radio graphic results.

Voltage compensation with coarse and fine voltage compensation switch.

6 LED indicators for Line, X-Ray, O/L, bucky, standby and fuse.

Precision solid state electronic timer.

Automatic calculation of mAS with digital display.

Digital display of KVP.

X Ray Machine Manufacturer India, X Ray Machine Exporters, Hospital Instruments X Ray Machine, X Ray Machine Suppliers, Hospital Instruments, Hospital Surgical Equipment, X Ray Machine and Equipment, Hospital Equipment Manufacturer, X Ray Machine India.
