

**Product Code . JL-HPWT-3992**

## Magnetic Stirrer Cum Hot Plate

### Description

---

Magnetic Stirrer cum Hot Plate

#### Features:-

Body made of CRC sheet duly powder coated with top plate made of Stainless Steel.

A heavy duty PMDC motor imparts a higher initial torque for smooth and vibration free start at lower speeds as well as at higher speeds.

Variable Speed of up-to 1200 RPM is controlled through a step less speed controller.

For heated magnetic stirrers the electrical/heat energy is controller through a simmer stat.

To work on 220/230 Volts AC Supply.

#### Technical:-

Capacity Dimensions Plate	Plate Dimensions (Inch) Ø135
2.0 ltrs.	6"x6"
5.0 ltrs.	8"x8"
