

Product Code . JL-GLE-4006

Abbe Refractometer

Description

Abbe Refractometer

Features:- of Abbe Refractometer

Measures dispersion

Horizontal loading of prism

Convenient reading angles

Used for measuring refractive index.

Range 1.3 to 1.7 with an accuracy of 0.001 direct on scale and 0.0001 by estimation.

Sugar percentage range of 0 to 95% with an accuracy of 1% on scale and 0.1 by estimation can be measured.

Complete with test piece, contact liquid and thermometer in wooden cabinet.
