

Product Code . JL-PLE-4126

Magnet for Floating Ring Magnet Apparatus

Description

Floating Ring Magnet Apparatus (Magnets Only)

JLab product made by well experienced professionals using advance technology and first-rate quality raw material.

Our products are widely used in various industries for many purposes.

Our products is widely demanded by concrete industry for optimum performance, robust construction, durability and longer service life.

Note:-

Dimension unit: mm

Material performance:- Read the form of material properties.

Curie temperature: 450oC

Magnetizing force:10K Oe

Margin dimension tolerance:- Outer diameter: $\pm 2\%$ Inner diameter: $\pm 1.5\%$ for grade AA products; $\pm 2\%$ for other products.
