Histology Vein Prepared Slide

Description

Histology Vein Prepared Slide

The macrocirculation comprises all vessels, both arteries and veins, that would be visible to the eye.

The vessels of the macrocirculation supply and drain a network of fine vessels interposed between them, the capillaries.

This network is also called the capillary bed.

Water and other components of the blood plasma which exude from the blood vessels form the interstitial fluid, which is returned to the circulation by the lymph vascular system.
