

Malignant Nephrosclerosis Flea bitten Kidney

Product Code . JL-BE-5186

Malignant Nephrosclerosis, Flea Bitten Kidney Model

Description

Malignant Nephrosclerosis, Flea Bitten Kidney Model

May see necrotizing glomerulitis, wrinkling and collapse of capillary walls and small crescents.

Myointimal hyperplasia and hypertrophy is associated with acute or persistent severe high blood pressure.

Fibroid necrosis of arterioles, hyperplastic arterioles (onion skinning) due to concentric layering of collagen.

Necrotizing arteriolitis:-

Fibrinoid necrosis of afferent arteriole, often superimposed on hyperplastic or hyaline lesions; media has deposits of deeply eosinophilic and fibrillar material containing fibrin and fibrinogen.

Early changes:-

Profound intimal thickening by myxoid connective tissue, reducing lumen.

Late changes:-

Scarring and concentric thickening of vessel wall by myointimal cells and deposition of basement membrane type material (onion skinning).

Biology Equipment Manufacturer India, Biology Equipment Exporters, Physics Lab Equipment Malignant Nephrosclerosis, Flea Bitten Kidney Model, Buy Malignant Nephrosclerosis, Flea Bitten Kidney Model Online India, Malignant Nephrosclerosis, Flea Bitten Kidney Model Suppliers, Didactic, Didactic Malignant Nephrosclerosis, Flea Bitten Kidney Model, Educational Equipment.

Contact JLab Export for your Educational School Science Lab Equipments. We are best school science lab equipment suppliers in india, school science lab equipments exporter, school science lab equipments manufacturers, school science lab equipments manufacturer, school science lab equipments supplier, school science lab equipments suppliers.
