## Foot Pump

### Description

---

#### Foot Pump

- For use with Boyle's Law apparatus, or any other application needing manual compressed air source or blowing of air.
- A metal cylinder has an outlet tube with pressure gauge present at its one end and piston with foot.
- Pedal attached at the other end.
- Pressing the pedal down and releasing it moves the piston in and out of the cylinder, pushing the air through the flexible hose pipe, which has a standard automobile tyre valve connector at its free end.
- A set of adaptor is included to facilitate the connection of flexible hose pipe to various inlets.
