

**Product Code . JL-ELA-5489**

## Sliding Microtome

### Description

---

#### Sliding Microtome

Sliding Microtome Sliding Microtome is a standard sectioning instrument especially designed for Research Laboratories for cutting sections of paraffin as well as celloiden embedded specimens.

Sliding Microtome is having the advantage of vertical object feed by micrometer screw and cylinder so rigidly held that perfect in mobility under the knife is ensured even when cutting relatively large, hard and inhomogeneous specimens.

The heavy knife block mounted on slide ways can be actuated entirely by hand.

**Sliding Microtome Manufacturer India, Sliding Microtome Exporters, Laboratory Instruments Sliding Microtome, Sliding Microtome Suppliers, Buy Sliding Microtome, Buy Sliding Microtome Online India, Didactic, Didactic Laboratory Instruments, Laboratory Instruments Exporters India, Laboratory Instruments Suppliers, Laboratory Instruments Manufacturer.**

#### Salient Features:-

Sturdy built with streamlined body.

Length of sliding track 27 cms.

Cuts section from 1-50 microns in steps of one micron each.

Equipped with sturdy knife holder adjustable to different ranges of sectioning angles.

---

Total excursion of feed 25mm. Maximum opening of the object stage : 31x26mm.

Supplied in a complete wooden case with the following accessories - A Razor, One Glass Plate for honing and three object holders.

Contact JLab Export for your Educational School Science Lab Equipments. We are best technical educational equipments manufacturers, technical educational equipments manufacturer, technical educational equipments supplier, technical educational instruments, technical educational instruments exporter, technical educational instruments manufacturer, vocational training lab instruments exporter.
