

Product Code . JL-SL-5796

Basic Electronics Parts Kit

Description

Basic electronics parts Kit

Electronic Component Modules:

These simple modules incorporate basic electronic components mounted in moulded plastic case of size 90x90x40 mm, with removable lid.

Useful for students to perform basic experiments in electronics in conjunction with other apparatus to explore the fundamentals of electronics.

These modules can also be used with other experimental setups needing the function of any of the individual components involved to perform more advanced experiments or demonstrations.

All modules provided with 4 mm shielded sockets at the top for electrical connections for input and output, as needed and have the basic circuit diagram clearly printed on top showing different connections.

Basic Electronics Parts Kit Manufacturer India, Basic Electronics Parts Kit Exporters, Electronics Instruments Basic Electronics Parts Kit, Basic Electronics Parts Kit Suppliers, Buy Basic Electronics Parts Kit, Buy Basic Electronics Parts Kit Online India, Didactic, Didactic Electronics Instruments, Electronics Instruments Exporters India, Electronics Instruments Suppliers, Electronics Instruments Manufacturer.

Contact JLab Export for your Educational School Science Lab Equipments. We are best school science lab equipment suppliers in india, school science lab equipments exporter, school science lab equipments manufacturers, school science lab equipments manufacturer, school science lab

equipments supplier, school science lab equipments suppliers.
