

Product Code . JL-HE-6949

Simulated Diabetes Testing

Description

Simulated Diabetes Testing

There are more than 2 million people known to have diabetes

It is estimated that well over a million people have the condition without being aware of it.

More than 18 million Americans have diabetes while another 20 million are in a pre-diabetic state.

Students will investigate the disease, including its types, causes, symptoms, and treatment options.

Based upon their diagnosis and the patient's medical history, they will be challenged to construct a plan for managing the individual's condition.

Provided with several medical histories and simulated Neo/Blood and urine samples, they'll perform a series of standard diagnostic tests.

The class will also take a 'diabetic risk test' to assess their own potential for developing the disease.

Simulated Diabetes Testing India, Simulated Diabetes Testing Manufacturer, Biology Lab Equipments, Health Equipment, Health Equipment Simulated Diabetes Testing, Simulated Diabetes Testing Suppliers, Simulated Diabetes Testing Export, Biology Equipments, Biology Equipments Simulated Diabetes Testing, Simulated Diabetes Testing Online, buy Simulated Diabetes Testing, Simulated Diabetes Testing Manufacturer, buy Simulated Diabetes Testing Online India.

Contact JLab Export for your Educational School Science Lab Equipments. We are best scientific laboratory equipments manufacturer, scientific laboratory equipments supplier, technical educational equipment exporter, technical educational equipment manufacturer, technical educational equipment supplier, technical educational equipments exporter.
