## **Combo plate Micro science Organic**

### **Description**

---

#### **Combo plate Micro science Organic**

60-well microplate used in general microtitration special procedures and hundreds of chemistry, biology and physics education experiments. This high grade plate is designed to the dimensions of standard 96 well and 48-well plates.

The plate is divided into 2 sections 48 small wells (volume 0.3ml) and 12 large wells (volume approx 2.5ml).

Each well is identified by a grid reference system.

The small wells can be likened to 'micro test tubes' and the large wells to 'micro beakers'.

The polypropylene plates are opaque, resistant to most organic chemicals and autoclavable.
