## Silicone Oil 50ml

### Description

---

#### Silicone Oil 50ml

Silicone Oil Lubricant is suitable for all Gas and Electric internal components.

Silicone oil has a wide variety of uses including, but not limited to, Cylinders, Gas Blow back Units, Valves, O-rings, Gears, Propane Adapters, Tools, Nozzles, Trigger Mechanisms, and more.

Much thicker concentration of lubrication over common spray cans which means they keep your metal parts greased for a longer period of time!

#### Features:

High Viscosity Formulation

No Petroleum Distillates

Safe on All Surfaces / Materials

Water Resistant

Wide Temperature Range and Superb Thermal Stability

Excellent Plastic & Rubber Compatibility

---

Low Surface Tension

Excellent Wetting Properties

Great Oxidation Resistance

Precision Application Tip
