Nervous System Model

Description

Nervous System Model

The JLab model illustrates the structure of the central and peripheral nervous systems.

Diagrams of the model illustrate locations of the brain, spinal cord and spinal nerves, axons, dendrites and synapses.

JLab includes a full-colour 600 x 450mm markable model of durable vinyl and an activity guide with background information, basic understandings, teacher-developed activities, a glossary, a key to model structures, colour transparencies and a blackline master.

Includes a close examination of the human brain with a removable transparent overlay defining the brain lobes.
