

Product Code . JL-MSE-7101

Combo still Micro science

Description

Combo still Micro science

Most activities can be set up and conducted in roughly a third of the time of traditional methods when using the JLab Combo still while the smaller volumes of chemicals required mean huge cost savings and a much safer laboratory environment.

The JLab Combostill Winner of the WorldDidac Award 2000 comes highly recommended by leading educators and is widely used in school labs around the world, while also having applications in research.

The Combostill is designed to replace expensive organic chemistry apparatus, microscience apparatus provides many significant advantages over more traditional methods.

Moreover, the cost, safety and simplicity of micro science methods makes it much easier to implement teaching where smaller groups or even individuals conduct their own experiments, resulting in much better learning outcomes.

Combo still Micro science Manufacturer India, Combo still Micro science Exporters, Combo still Micro science, Buy Combo still Micro science Online India, Combo still Micro science Suppliers, Didactic, Didactic Combo still Micro science, Educational Equipment.
