

**Product Code . JL-MS-7194**

## Organic Molecular and Orbital Model Set

### Description

---

#### Organic Molecular And Orbital Model Set

Molecular models help the teacher convey a concrete representation of the molecular world.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

Each kit comes in a durable storage case with compartments for segregation of parts.

The brilliance of the Molymod range is its ease of use and accurate representation in an easily understood way.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

Excellent quality models produced from precision engineered moulds and materials.

The range of models included in the JLab range is designed to enhance teaching of the UK and US curricula.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

**Organic Molecular And Orbital Model Set Manufacturer India, Organic Molecular And Orbital Model Set Exporters, Organic Molecular And Orbital Model Set, Buy Organic Molecular And Orbital Model Set Online India, Organic Molecular And Orbital Model Set Suppliers, Didactic, Didactic Organic Molecular And Orbital Model Set, Educational Equipment.**
