

Product Code . JL-MS-7195

Detergent Molecular Model Kit

Description

Detergent Molecular Model Kit

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

Each kit comes in a durable storage case with compartments for segregation of parts.

Molecular models help the teacher convey a concrete representation of the molecular world.

The brilliance of the Molymod range is its ease of use and accurate representation in an easily understood way.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

Excellent quality models produced from precision engineered moulds and materials.

The range of models included in the JLab range is designed to enhance teaching of the UK and US curricula.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

Detergent Molecular Model Kit Manufacturer India, Detergent Molecular Model Kit Exporters, Detergent Molecular Model Kit, Buy Detergent Molecular Model Kit Online India, Detergent Molecular Model Kit Suppliers, Didactic, Didactic Detergent Molecular Model Kit, Educational Equipment.
