

**Product Code . JL-MS-7217**

## **Sodium Chloride Molecular Model Kit**

### **Description**

---

#### **Sodium Chloride Molecular Model Kit**

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

Molecular models help the teacher convey a concrete representation of the molecular world.

The brilliance of the Molymod range is its ease of use and accurate representation in an easily understood way.

Excellent quality models produced from precision engineered moulds and materials.

Each kit comes in a durable storage case with compartments for segregation of parts.

The range of models included in the JLab range is designed to enhance teaching of the UK and US curricula.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

**Sodium Chloride Molecular Model Kit Manufacturer India, Sodium Chloride Molecular Model Kit Exporters, Sodium Chloride Molecular Model Kit, Buy Sodium Chloride Molecular Model Kit Online India, Sodium Chloride Molecular Model Kit Suppliers, Didactic, Didactic Sodium Chloride Molecular Model Kit, Educational Equipment.**
