

Product Code . JL-EE-7222

Backpack Water Quality

Description

JLab Backpack Water Quality Test Kit

JLab Backpack JLab Water Quality Educational Test Kit.

Everything students need to know about environmental water parameters - in one backpack.

This durable backpack is ideal to take to the field for on-site measurements.

This portable kit contains well-constructed lessons and activities and will allow the teacher to get the most out of their classroom or fieldwork time.

The components are tied together by a comprehensive teachers manual that includes information about each parameter, classroom activities designed to introduce students to each parameter, and detailed field testing procedures.

Backpack JLab is designed with all the necessary components in one place, reducing the chance of misplacing an item.

JLab parameter test kits and pocket testers provide teachers with a valuable tool in helping students assess the water quality of streams, rivers, and lakes.
