

**Product Code . JL-MS-7246**

## Buckminster fullerene Model

### Description

---

#### Buckminster fullerene Model

The brilliance of the Molymod range is its ease of use and accurate representation in an easily understood way.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

Excellent quality models produced from precision engineered moulds and materials.

Each kit comes in a durable storage case with compartments for segregation of parts.

The range of models included in the Edu-Lab range is designed to enhance teaching of the UK and US curricula.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

Molecular models help the teacher convey a concrete representation of the molecular world.

**Buckminster fullerene Model Manufacturer India, Buckminster fullerene Model Exporters, Buckminster fullerene Model, Buy Buckminster fullerene Model Online India, Buckminster fullerene Model Suppliers, Didactic, Didactic Buckminster fullerene Model, Educational Equipment.**
